Legislative Alert

THE EXTERMINATOR GOVERNOR IS BACK!

State Funding to give pets trapped in shelters more time to be found or adopted is not in the state budget.

We know there is a budget crises but not funding a state law is not "belt tightening." It is a politically motivated attack on state law. No one Governor should have the power to pick and choose what state responsibilities he wishes to fulfill and which to ignore.

What you can do:

1. Call or write your State Senator and Assembly Member.
2. You can find his contact information in the following way

Go to : www.leginfo.com.

Click on: the [Your Legislature](#) button.

Fill in the [Zip Code](#) field.

Click on [Search](#).

This will give you the [Telephone Number](#) (in Sacramento) and the [Fax Number](#) for your State Sentaor and Assemblymember.

Since legislative districts and zip codes do not coincide, there maybe more than one person that you can contact. If you have the energy, contact all of them

IF YOU CHOOSE TO FAX A LETTER

The Honorable (First Name Last Name)
State Capitol
Sacramento CA 95814

Dear (Senator Assemblymember)

Please restore funding for local shelters attempting to hold lost pets in California Shelters for at least four days. It increases both their reunions with their former family and their adoption from shelters. I understand that financial sacrifices must be made for the state to function responsibly, but to eliminate all funding is a political, not a fiscal act.

Sincerely

Name

Title (if any)
